How to Use This Guide

This NAILBA Field Underwriting Guide had been produced specifically with you, the producer, in mind. We believe it is a highly unique, educational, and practical resource that can save you time and earn you more money. The best practices included here can truly improve your chances of having your business placed quickly and easily!

- Highlight key points of your app for faster underwriting (Page 4)
- Quickly check applications to make sure they are fully complete (Page 8)
- Set and manage expectations with your client (Page 11)
- Ensure you gather the right information for every case (Page 15–16)
- Understand risk factors and how to optimize the medical assessment process (Page 17)

Created by a group of experienced industry professionals representing each of the entities involved in the insurance application process, this Guide has been created to be a practical, hands-on resource for you to put to use as you work through an application. It is also intended to be a long-term reference tool, giving you a full perspective on the important steps to acknowledge and the distinct roles of the carrier, the Brokerage General Agency, and you, the producer, in the application process.

Whether you are new to the business or a seasoned veteran to writing apps, we believe this Field Underwriting Guide can be a great “sidekick” as you seek to improve your production levels. It can be called upon for the consistency and the competitive edge you need to increase your percentage of successfully written business. We think that following these guidelines will increase the placement of your business by 10 to 20 percent, resulting in thousands of additional sales dollars.

So don't just tuck this away on the shelf!

**Take a few minutes to review this guide. Start using the interactive tools
to improve the way you sell and write your business today!**

Dear Valued Producer,

This guide will help you do the best basic field underwriting possible and prepare you for meetings with clients with a variety of medical histories.

Using this guide, you will be able to gather the right information, ask the right questions, and set clear expectations with your client. Use this guide to increase your ability to obtain coverage for your clients that meets their expectations.

- **Fact Finder and Generic Underwriting Criteria:** The fact finder (p. 15) and the generic underwriting criteria (p. 17) will help your brokerage general agency find the best carrier prior to formal submission. Impaired risk cases are the most difficult cases to quote.
- **Common Medical Impairments Summary:** Accurate information enables you or your Brokerage General Agency to select the best carrier for your client and determine which risk class to quote. Please use the common medical impairments summary (p. 18); this summary will help guide you in asking the right questions on medical conditions. Once you determine which carrier will best suit your client, the application process begins.
- **Forms Checklist:** The best means of communicating with the underwriting department at the insurance carrier is through the application. Our handy forms checklist (p. 8) can be used to make sure important documents are not missed. Thorough completion of each application can save weeks of additional underwriting time and will result in higher placement. The checklist will also help you deliver the policy and receive your commission checks sooner.
- **Setting Clients Expectations:** It is always best to set expectations (p. 11), and using our guide will enhance the communication between yourself, the client, and the agency. Underwriters with all carriers depend on you to make sure the information on the application is complete, detailed, and accurate, and that all the relevant information about the applicant's situation is provided even though it might not be initially required on the application. After all, your time and effort getting the sale should not be wasted on a poorly completed application, which will result in delays or worse yet, a not-taken policy.
- **Cover Letter:** A cover letter (p. 6) is an excellent way for you to clarify a situation or provide the underwriter with additional information about your client. If you have information that will give a more complete picture of the person or present a favorable impression, do not hesitate to submit it.

What should your cover letter include? Highlight the factors that would not be developed through the application, current exam, attending physician statements, or an inspection report. For example, if your client has a history of a heart attack, highlight the favorable lifestyle changes that he/she has made since the event—weight, cholesterol and blood pressure control, smoking cessation, a daily aspirin, and exercise 3 times per week.

Five minutes of your time can shave days or even weeks from the underwriting process!

To: Underwriter @ XYZ Company:

- How well do you know the client and the client's business? Have you done any business with the client in the past? Were they referred to you by another client? Is the client a key center of influence for future business?
- How did the sale develop? What is the purpose of the coverage (income replacement, key-person, buy-sell, estate preservation, etc.)?
- How were the plan of insurance and face amount determined? Provide any assumptions or formulas used to determine the amount. Include copies of any financial planning documents.
- Are other business partners applying for coverage? If not, explain why.
- If a loan is involved, what is the amount, duration, and purpose of the loan?
- Is this a new business venture? Does the client have any prior business experience that would contribute to this new venture's success?
- Is the case being shopped to other carriers? Which carriers? What offers have you received? What is the client's premium tolerance? What is the total line of coverage, and how much will be placed with each carrier?
- Any history of bankruptcy or reorganization? Chapter filed? Date of discharge? Include any special circumstances around that specific time.
- Does the client have any special circumstances with his or her dependents?
- Are there any factors in the client's history that may present a problem or even help with underwriting?
- Any underwriting concerns? Lifestyle changes that he/she has made? (This is especially important when dealing with older-age clients)
- Is the client physically active or involved in any religious/community organizations?
- Has the client traveled to countries longer than two weeks? Any upcoming travel?
- Has the client participated in avocations such as aviation, rock climbing, etc.? Does the client maintain any extra training or proficiency testing beyond what's required?
- Has the client ever been rated or declined in the past?
- Are you in competition with another broker for the case?
- Have CPAs, attorneys, or trustees been involved in the case? What is their role? Do you expect any changes before or after issue based upon recommendations from the client's advisors?
- Is the client a non-working spouse? If so, make sure to address amount of coverage on working spouse and the annual income for that working spouse as well.

Is Your Business Profitable?

Using placement ratio, carriers are looking at agents as either profitable or not profitable parts of their field force. Brokerage General Agencies (BGAs) also look at their business to see if it's profitable, and agents do as well. Cases that are not placed are not profitable for anyone, and carriers are now starting to penalize BGAs with low placement ratios by dropping commissions, or worse, terminating contracts with brokerage agencies and agents. The current industry average of not placed cases is between 25 and 35 percent.

The hardest part of an agent's job is getting the sale. The next major hurdle is getting the formal application completed and mailed to the BGA; after that, most of the work of getting a policy issued will be done by the BGA and carrier.

- How many prospecting calls do you have to make to get just ONE appointment?
- From the appointments you obtain, how many turn into follow-up appointments?
- How much of your time is spent on determining need and adjusting products?
- How many follow-up visits do you make?

A lot goes into getting that one application! Finally, when you are done and ready to send this application to your BGA, most of your work is completed.

What if you don't place that case? This is lost time, money, and effort for you, the BGA, and the carrier. Medical records have been paid for, underwriting requirements have been obtained, underwriters and doctors have reviewed the case. Everyone involved has made an investment in the case for no return.

Use this guide, ask the right questions, complete ALL questions on the application, and set realistic expectations up-front for your client.

All of this can make the difference between an expedited paid case and a failed opportunity.

It's not how many cases you submit. It is how many are paid!

"What's all this worth?"

If you can reduce your case cycle time by 8 to 10 days, then you could see a dramatic increase in your placement percentage.

If you spent an extra five minutes per case, you could increase your placement ratio by 5 percent, and your gross income would increase by approximately \$12,000 per year! This is based on 100 cases per year with an average gross profit of \$2,300. This means spending another 8 hours or so each year and earning an additional \$1,500 for each hour spent.

Think of how much better you feel when your time prospecting results in more sales.

Completion of a Forms Checklist will accelerate the underwriting process as much as 10 to 15 days. Application

- Signed by Agent, Proposed Insured, and Owner.
- When applicant is a child, the parent must sign as the Proposed Insured on all forms.
- When a business is the Owner, an officer other than the client MUST sign the application as Owner.
Include his/her title when signing for the business.
- When the Owner is a Trust, the application MUST be dated after the Trust date. Also, be sure to include tax ID#. All trustees should sign the application as required in the Trust Agreement.
- If a corporation is the owner, make sure to include tax ID#.
- Trustee Acknowledgement Form (if Trust is the Owner of the policy).
- EOLI - Employer Owned Life Insurance (when employer is the owner of the policy).

Non-Medical

- At most, complete all doctor information and impairments; these two items will shorten the underwriting process.

HIV Consent

- Your General Agent will have correct form numbers for the resident state of the applicant.

HIPAA Authorization

- Signed HIPAA Authorization Form.

Replacement Form(s)

- Your General Agent can verify proper forms for the state in which this application is being signed and delivered.

Questionnaires

- Special questionnaires may be required for some activities. Your General Agent can assist you with the correct form.

1035 Forms

- Please submit originals.

State-Specific Forms

- Proper forms for the state in which this application is being signed and delivered can be verified with your General Agent.

Financial Information

- When a business is the Owner, please include business financial statements to include Balance Sheets, Income Statements, and Cash Flow Statements (if available) for at least the last two years to demonstrate a track record for the company.

Cash with Application

- Checks need to be made payable to the Insurance Carrier.
- Ensure your client's coverage is bound by verifying with your General Agent the specific rules for each Carrier.
- Completed Limited Insurance Agreement when submitting cash with application.

Underwriting Requirements:

- Schedule the paramed, labs, EKG, and all medical requirements.

• Universal Life Cases:

• **Certification of Non-Illustration or Acknowledgment of Non-Illustration**

- NAIC regulations require the illustration to be dated on or prior to the application signed date.
- If a signed illustration is not collected at time of application, a Certification of Non-Illustration or Acknowledgment of Non-Illustration must be completed.

Formula and Guideline for Amounts of Insurance (Financial Underwriting)

Each carrier has its own specific guidelines. This information here is meant to give you a general guideline to help you in the Financial Underwriting process. See specific carrier guidelines or check with your General Agency to determine if third-party financials are needed.

What Is Financial Underwriting?

Financial underwriting is the analysis of an individual's financial situation which takes place every time a life insurance case is underwritten. The purpose of this evaluation is to determine the need for insurance and to make sure the amount of insurance applied for is reasonable and in line with the insured's needs.

Purpose	Formulas and Guidelines	Pertinent information in a cover letter to accompany the application																		
Personal Insurance—Replacement of Income	<table style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: left;">Age</th> <th style="text-align: left;">Factor times income</th> </tr> </thead> <tbody> <tr><td>20–35</td><td>20 to 30</td></tr> <tr><td>36–40</td><td>15 to 25</td></tr> <tr><td>41–45</td><td>14 to 20</td></tr> <tr><td>46–50</td><td>12 to 20</td></tr> <tr><td>51–59</td><td>10 to 15</td></tr> <tr><td>60–64</td><td>7 to 10</td></tr> <tr><td>65–70</td><td>4 to 10</td></tr> <tr><td>70+</td><td>4 to 5</td></tr> </tbody> </table>	Age	Factor times income	20–35	20 to 30	36–40	15 to 25	41–45	14 to 20	46–50	12 to 20	51–59	10 to 15	60–64	7 to 10	65–70	4 to 10	70+	4 to 5	A cover letter explaining: Purpose and need for coverage How amount was determined Details on earned and unearned income
Age	Factor times income																			
20–35	20 to 30																			
36–40	15 to 25																			
41–45	14 to 20																			
46–50	12 to 20																			
51–59	10 to 15																			
60–64	7 to 10																			
65–70	4 to 10																			
70+	4 to 5																			
Children's Coverage	Up to 50% of parents' coverage *Some carriers only offer maximum of \$250,000. Check with your BGA for details.	Need for coverage If there is more than one child in the family, they should all be insured for similar amounts. If not, an explanation should be given.																		
Debt Protection (Personal)	100% of home loan 50% to 75% of loan balance for other types of loans	Reason for loan Duration and amount of loan Identity of lender Status of loan (pending or approved)																		
Debt Protection (Business)	50% to 75% of loan balance	Same as personal loan with the addition of: Business financial statements Explanation of why the proposed insured is key to the debt repayment																		
Charitable Contributions	Based on contribution history and personal needs having been met	Details of association with charity Details of personal insurance Details about organization if not well known Organization's tax-exempt number Reason for purchase																		
Key Person	Up to 10 times annual income	Description of why this is a key person Details of coverage on other key staff Other details: Proof of total compensation Employment contract																		

HELPFUL HINTS FOR THE BROKER

Through the application process, remember to:

1. Explain the application, set expectations on how long it might take, and explain the “life cycle of an application.”
2. Explain to your client the medical exam and inspection process.
3. Complete limited insurance agreement when submitting cash with application.
4. To ensure the best exam results, encourage your client to:
 - fast for at least 12 hours prior to the exam.
 - avoid foods that are high in salt.
 - avoid alcohol for at least 8 hours before the exam.
 - avoid strenuous exercise for at least 12 hours prior to the exam.
 - avoid tobacco for at least one hour prior to the exam.
 - bring a list of all current medications, including dosages, name, address, and phone number of the physician prescribing the medications.
 - If a stress test is required, advise your client to wear comfortable clothing and athletic shoes.
5. Fully answer all questions on the application, and use your client’s full legal name.
6. Write legibly using black ink. Take your time and write the information so that it can be read.
7. Document Aviation, Avocation, and Foreign Travel. (Check with specific carrier at time of application for specific forms, and check with state for compliance regulations related to foreign travel)
8. Explain the insurable interest and financial justification.
9. Make sure the application is signed by you, your client, and the policy owner(s).
10. Foreign citizenship of client—make sure to address country that client is a citizen of, provide copy of visa (type and expiration), provide copy of green card, or supply green card number.
11. Complete the Part 2, medical information section of the application:
 - Ask probing questions—Ask about the frequency of the condition; date of diagnosis, treatment given, and by whom. Also include start and stop dates, if recurrent.
 - Use concrete terms—Be specific about treatment and medications, using accurate spelling, dosage, and reason for medication.
 - Provide details of all treatment—Give start and end dates all medical treatment for the past 5 years.
 - Provide physician information—List full names, addresses, and phone numbers for all physicians consulted.
 - Provide details of any cognitive or functional tests during the past 5 years.

A properly completed application with medical information can help to speed the underwriting process along and will not leave the prospect wondering, “What’s going on with my application?”

The Insurance Exam: Setting Client Expectations

Example of form/letter to provide to your client:

An examination will be required when applying for life insurance. The degree of testing is determined by your age and the amount of insurance you have applied for. The exam can consist of any of the following:

- Health history
- Vital signs, to include blood pressure, pulse, height, weight, and chest measurements (for males only)
- Urine sample
- Blood sample
- EKG or treadmill
- Doctor examination (an exam performed by a doctor)
- Chest X-ray (due to certain ages, face amounts, and smoking status)

The exam is performed by an approved paramedical facility. They will contact you to make an appointment that is convenient for you. The examiner will advise you of what the exam will consist of from the list noted above and advise you of any necessary instructions.

Please note the following before taking your exam:

- Try to relax prior to the exam.
- Please fast for at least 8 hours prior to the exam.
- Avoid strenuous exercise for at least 12 hours prior to the exam.
- Try to abstain from the use of stimulants at least 1 hour prior to the examination (smoking, coffee, tea, soft drinks, or anything containing caffeine).
- Alcoholic beverages should not be consumed for at least 12 hours prior to the exam.
- Please prepare a list of doctors' names and addresses that have been seen in the last few years.
- Bring a list of all current medications, including dosages, as well as the name, address, and phone number of the physician prescribing the medications.
- Please bring a photo ID (driver's license).

There is no cost to you for the exam. If you would like a copy of your lab results, please write and sign a short note addressed to the carrier where you are applying for life insurance, indicating you would like a copy of your lab results sent to you. We will forward to the carrier.

Example of letter to client after taking application, thus setting the expectations the client should have when applying for life insurance.

WELCOME “ABC” Company

(Date)

(Client Name)

(Address)

(City, State, Zip Code)

Dear (Client Name):

Thank you for placing your confidence in us. We are committed to providing you with the best service in the business.

We have completed our in-house process and have forwarded your application(s) to (Company Name or Names) for medical history review and underwriting approval. Every week, we will communicate with the carrier on your case. Once all requirements are received and the policy is issued, we will be calling you to make arrangements to deliver the new policy. During the underwriting process, we may be in contact with you if the carrier requests additional information or clarification.

Note: Please be advised that the time between when an application is submitted and a policy is issued varies based upon several factors and could take anywhere from 4 to 8 weeks. This all depends on when the exam is completed, if there are medical records that need to be obtained from your doctor, and if any additional forms/questionnaires are being requested by the underwriter.

We will work to expedite the handling of your application, as our primary goal is your satisfaction! In the meantime, please do not hesitate to contact us with any questions or concerns. You may reach us at 505-555-1212.

Thank you again for your business with ABC.

Best Wishes,

Broker Name

Registered Representative

Company Name

Agent:

- Initiates contact with applicant and maintains the relationship
- Collects client's financial and medical information
- Field underwriting and initial assessment of need
- Educates client on the case life cycle; sets expectations
- Works with agency to obtain best solution for client
- Begins formal application process with client
- May order paramed exam

BGA:

- Illustration Software (Administrator to Broker)
- Promotes carrier products to agents
- Compensation awareness
- Educates and trains agents about the cycle of case; provides expectations
- Field Underwriting—utilizing underwriting guidelines information from carriers to assess products for client; work with Agent to determine best possible solution for client
- Ensures completeness of application package prior to submission to Carrier
- Timely ordering of requirements
- Ensures agent is properly licensed
- Provides clear and timely communication with Broker

Carrier:

- Designs products
- Legal and compliance
- Advanced sales support and concepts
- Policy service
- Policy risk assessment and policy delivery
- Provides consistent, timely responses with the best possible offer the first time
- Promotes new products through various communication tools
- Communication regarding product changes, state changes, legal changes
- Designs/maintains producer and BGA compensation payments and bonus programs

All personal information protected by HIPAA regulations (see HIPAA Form attached with supplemental forms)

<p>Angina Pectoris</p>	<p>See Coronary Artery Disease</p>
<p>Angioplasty</p>	<p>See Coronary Artery Disease</p>
<p>Anorexia Nervosa: A psychiatric disorder characterized by a fear of obesity, low body weight, and a distorted body image.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Age at diagnosis? • Current and prior height/weight? • Type of treatment? • Hospitalization required? • Medication: type and dosage? • Does client have a normal lifestyle now? • Length of recovery? • Any other mental health disorder/issue?
<p>Anxiety Disorders: Anxiety neurosis, phobias, and obsessive compulsive disorders</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Severity of disorder? • Frequency of any panic attacks? • Type of treatment? • Medication: type and dosage? • Dates of any suicidal thoughts or attempts? • Dates of any hospitalization(s)? • Functional and/or recovered? <p>Related Issues:</p> <ul style="list-style-type: none"> • Driving history?
<p>Arrhythmia: Deviation from the normal rhythm of the heart.</p> <p>Specific arrhythmic impairments include: Sinus bradycardia, sinus tachycardia, paroxysmal tachycardia, paroxysmal atrial tachycardia, paroxysmal ventricular tachycardia, sick sinus syndrome, irregular/ectopic pulse, atrial fibrillation, atrial flutter, ventricular fibrillation, and wandering pacemaker.</p>	<p>Description of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • What is the specific arrhythmia? • Cause of arrhythmia? • Dates of first and last attack? • Frequency of episodes? • Client's symptoms? • Any associated conditions/health problems? <p>Treatment:</p> <ul style="list-style-type: none"> • Dates and type of treatment received? • Medication: type and dosage • Any complications from treatment? • Does client have a pacemaker?
<p>Arteriosclerosis</p>	<p>See Coronary Artery Disease</p>

<p>Asthma: Lung disorder characterized by reversible obstruction of the bronchi (bronchospasm) or increased hypersensitivity of the airways to various stimuli (allergens, dust, chemicals, exercise, or cold air). Symptoms include coughing, shortness of breath, and intermittent wheezing.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date and age at diagnosis? • Type and severity? Any status asthmaticus? • Results of pulmonary function tests (FVC and FEV1)? • Frequency of attacks? Dates of first/most recent attacks? • Any hospitalization or ER visits? • Medication: type and dosage? • Client's occupation? • Current and prior smoking history?
<p>Barrett's Esophagus</p>	<p>See Esophagus</p>
<p>Build: Overweight, underweight, or rapid weight loss</p>	<ul style="list-style-type: none"> • Client's height and weight? • Weight gain/loss in past year? • How and why did weight change? • Gastric bypass? • How long has current weight been maintained? • Any other impairments or conditions?
<p>Bulimia Nervosa: A psychiatric disorder characterized by self-induced vomiting, use of laxatives or diuretics, binge eating episodes, and a preoccupation with body image.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Age at diagnosis? • Current and prior height/weight? • Type of treatment? • Hospitalization required? • Medication: type and dosage? • Does client have a normal lifestyle now? • For how long? • Other psychiatric disorders?
<p>Bypass Surgery</p>	<p>See Coronary Artery Disease</p>
<p>Cancer: Cancer, neoplasia, and malignancy are interchangeable terms used to describe a pathological condition of cellular growth that is invasive and has a tendency to metastasize (spread to other parts of body). Prognosis varies by tumor type, stage, and grade.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Type and location of cancer? • Date of diagnosis? • Pathology results: tumor size, stage, and grade? • Did cancer spread (metastasize)? Where? <p>Treatment:</p> <ul style="list-style-type: none"> • Describe treatment and start/end dates (including surgery, chemotherapy, and radiation) • Medication: type and dosage; start/end dates? <p>Current Condition:</p> <ul style="list-style-type: none"> • Recurrence? • Results of interim testing? • Date and outcome of last physician visit?

<p>Cerebrovascular Disease:</p> <ul style="list-style-type: none"> • Cerebral vascular accidents (CVA) or strokes resulting from interruption of blood flow to the central nervous system. Causes include: <ul style="list-style-type: none"> • Thrombosis due to atherosclerosis • Embolism • Hemorrhage due to aneurysm • Hypotension (low BP) due to arrhythmias • Vasculitis • Transient ischemia attack (TIA) is a short interruption in blood supply to a portion of the brain, resulting in temporary neurological symptoms usually lasting 24 hours or less. TIAs frequently precede a Stroke. 	<p>History of Condition:</p> <ul style="list-style-type: none"> • Type and dates of episodes? • Underlying cause, if known? <p>Tests and Treatment:</p> <ul style="list-style-type: none"> • Treatment and surgical history? • Medication: type and dosage • Results of carotid ultrasound, angiography, Stress EKG treadmill testing, coronary angiogram, and echocardiography? <p>Current Condition:</p> <ul style="list-style-type: none"> • Current medical status? • Residual side effects/ impairments? • Any other medical problems or issues with circulation? • Current and prior smoking history?
<p>Cirrhosis</p>	<p>See Liver Disorders</p>
<p>Congenital Heart Disease:</p> <p>Congenital heart disease is a type of defect or malformation in one or more structures of the heart or blood vessels that occurs before birth. Congenital heart defects may produce symptoms at birth, during childhood, and sometimes not until adulthood. Examples include:</p> <ul style="list-style-type: none"> • Coarctation of the aorta • Patent ductus arteriosus • Tetralogy of fallot • Atrial and ventricular septal defects 	<p>History of Condition:</p> <ul style="list-style-type: none"> • Type of congenital abnormality? • Severity? • Treatment including dates and type of any surgical procedures? • Any heart enlargement? • Any arrhythmias? • Any residual issues postsurgery? • Medication: type and dosage? • Any other medical conditions? • Current and prior smoking history?
<p>COPD (Chronic obstructive pulmonary disease) / Emphysema / Chronic bronchitis / Chronic obstructive lung disease (COLD):</p> <p>Chronic obstructive pulmonary disease (COPD) is a group of lung diseases where airflow through the airways leading to and within the lungs is partially blocked, resulting in difficulty breathing. As the disease progresses, breathing becomes more difficult and complicates normal activities.</p> <ul style="list-style-type: none"> • Chronic bronchitis: Inflammation occurs in the bronchial tubes. • Emphysema: Permanent lung damage to the air sacs (alveoli) at the end of the airways. <p>COPD is a gradually progressive disease with more rapid progression in individuals who continue to smoke. In many individuals with COPD, the airway obstruction is partially reversible in response to bronchodilators.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Medication: type and dosage? • Results of pulmonary function tests (FVC and FEV1)? • Shortness of breath at rest or with exercise? • Chest X-ray results? • Any heart condition or arrhythmias? • Oxygen use? • Is client underweight? • Current and prior smoking history?

<p>Coronary Artery Disease: Restriction of oxygen to the heart cause by atherosclerosis (narrowed arteries), thrombosis, or spasm. When blood flow becomes compromised due to stenosis, it leads to symptoms of chest pain (a.k.a. angina or ischemia). Plaques can rupture and release debris that prompts the formation of blood clots, a common cause of heart attacks and strokes. If the plaque blocks the artery completely, the area of the heart that is being supplied by the artery dies, resulting in a myocardial infarction (heart attack).</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Onset age? • Severity of disease—Number and names of vessels affected? • Surgical history—bypass or angioplasty (with or without heart stent)? • Medication: type and dosage? • Dates and results of angiograms, stress tests, and perfusion studies? • Ejection fraction (EF) > 50%? • Any symptoms post-operatively? • Blood pressure and cholesterol levels? • Active lifestyle? • Family history of early death from coronary disease? • Current and prior smoking history?
<p>Crohn's Disease: Crohn's disease may also be called ileitis or enteritis. Crohn's disease usually occurs in the lower part of the small intestine, called the ileum, but it can affect any part of the digestive tract, from the mouth to the anus. Attacks can be chronic or isolated. Complete remission can occur, but surgery is frequently required due to failure of drug therapy or complications. Crohn's can recur post-operatively.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Frequency and severity of attacks? • Date of last attack? • Type of treatment received? • Hospitalization or surgery? • Medication: type and dosage? • Any ongoing symptoms or complications? • Underweight or anemic?
<p>Depression:</p> <ul style="list-style-type: none"> • Manic depression/Bipolar disorder: cyclical swings between elation and despair. • Reactive depression: depression caused by an external situation that is relieved when situation is removed. 	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Cause of depression? • Type of treatment? • Dates of any hospitalization? • Medication: type and dosage? • Dates of any suicidal thoughts or attempts? • Functional and/or recovered? <p>Related Issues:</p> <ul style="list-style-type: none"> • Driving history?

<p>Diabetes Mellitus: A chronic disease occurring when the pancreas does not produce enough insulin. The body's ability to utilize carbohydrates and break down fats is reduced. Sugars build up in the blood and urine, leading to complications affecting the heart, brain, legs, eyes, kidneys, and nerves. Uncontrolled diabetes can result in angina, heart failure, stroke, leg cramps on walking (claudication, peripheral vascular disease), poor vision, renal failure, and damage to nerves (neuropathy).</p> <p>The diagnosis of diabetes is made when an individual has high blood sugar levels in the blood, increased thirst, urination, hunger, frequent infections, or signs of any of the complications associated with diabetes.</p> <p>To confirm a diagnosis, physicians will measure the level of a protein in the blood, hemoglobin A1C (a.k.a. glycolated or glycosylated hemoglobin).</p> <p>Types:</p> <ul style="list-style-type: none"> • Type 1, Insulin dependent (IDDM), Juvenile onset diabetes • Type 2, Non-insulin dependent (NIDDM), Adult onset diabetes mellitus (AODM)] • Gestational diabetes • Pancreatic failure 	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Type of diabetes? • Client's age at onset? <p>Tests and Treatment:</p> <ul style="list-style-type: none"> • Medication: type and dosage? • How often does client test sugar levels at home and visit his/her doctor? • Date of last visit? <p>Current Condition:</p> <ul style="list-style-type: none"> • Degree of control? • Latest and average of hemoglobin A1C readings? • Any complications or other medical impairments? • Overweight? • Current and prior smoking history?
<p>Diverticulosis and Diverticulitis: Diverticula are small pouches that form through the muscular layer of the intestinal wall. Diverticulitis is the inflammation of one or more of these pockets. Complications include abscess, fistula, or obstruction of the colon that require surgery.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Frequency and severity of attacks? • Date of last attack? • Hospitalization or surgery? • Medication: type and dosage? • Any ongoing symptoms or complications?
<p>Drugs: A chemical substance that alters mental, emotional, or bodily function. Usually applied to narcotics, it also includes prescription drugs, which can be abused when dosages are exceeded.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Type of drugs used by client? • Amount? • Frequency of use? • How long client has been clean? • Any relapses? • History of drug overdose? <p>Treatment:</p> <ul style="list-style-type: none"> • Rehab program? • In/out patient? • Duration of stay? <p>Related Issues:</p> <ul style="list-style-type: none"> • Use or abuse of alcohol? • Suffer from depression? • Stable job and home life? • Any other medical problems? • Traffic violations or legal problems caused by drug use?

<p>EKG and Stress EKG Abnormalities: Electrocardiograms measure the electrical activity of the heart through special sensors placed strategically on the chest, arms, and legs. The electrodes are connected to a machine that translates the electrical activity into line tracings on paper. The tracings are analyzed by the machine, the physician, skilled underwriters, or nurses.</p> <p>A resting EKG may suggest:</p> <ul style="list-style-type: none"> • Problems with heart rhythm or rate (arrhythmias) • Heart enlargement • Inflammation of the lining of the heart (pericarditis) • Insufficient blood flow (ischemia) • Prior injury (myocardial infarction) • Electrical abnormalities caused by electrolyte imbalance in the body. <p>Stressing the heart through exercise (treadmill or bike) or using a medication increases the heart rate, blood pressure, and demand on the heart muscle. Ischemia may occur during exercise in areas of the heart supplied by narrowed coronary arteries. Other symptoms (shortness of breath, chest pain, claudication) can be strong predictors of this or other vascular impairments.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Onset date of abnormalities? • Type of abnormality? • How long have the findings been stable over time? • Results of any advanced testing: i.e., resting or stress echocardiograms, MUGA, thallium stress tests, angiograms, doppler? • Any underlying vascular disease?
<p>Emphysema</p>	<p>See COPD</p>
<p>Epilepsy/Seizures: Abnormal discharges within the brain characterized by recurring attacks of motor, sensory, or psychic malfunction, with or without loss of consciousness, convulsive movements, and urinary incontinence. Seizures can cause falls, drowning, and accidents. A prolonged seizure condition called status epilepticus can lead to coma or death.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Type: grand mal/petit mal? • Dates of 1st/most recent attacks? • Number of attacks per year? • Type of treatment received? • Medication: type and dosage? • Client's occupation? • Any traffic violations or incidents?

<p>Esophagitis: Inflammation of the esophagus is a complication of gastroesophageal reflux disease (GERD). If GERD is left untreated, esophagitis can cause bleeding, ulcers, and chronic scarring. This scarring can narrow the esophagus, eventually interfering with swallowing.</p> <p>Chronic or longstanding GERD can lead to Barrett's esophagus. Barrett's esophagus results when the normal cells of the esophagus are replaced with cells similar to those of the intestine. It is a precancerous lesion that increases the risk of esophageal cancer.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Details/type of treatment? • Hospitalization or surgery? • Results of upper GI series and endoscopies? Any Barrett's? • Medication: type and dosage? • Any ongoing symptoms or complications (i.e., hemorrhage or perforation)? • Underweight or anemic? • Current and prior alcohol use—type, quantity, and frequency? • Current and prior smoking history?
<p>Fatty Liver</p>	<p>See Liver Disorders</p>
<p>Fibrocystic Breast Disease: Generalized breast lumpiness, also called fibrocystic breast changes or benign (noncancerous) breast disease.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Any hyperplasia or dysplasia on biopsy? • Any personal or family history of breast cancer? • Breast exams and mammograms performed regularly?
<p>Gilbert's Disease (Familial Hyperbilirubinemia): Gilbert's Disease is a benign, hereditary condition disorder leading to a defect in the removal of bilirubin from the liver. Blood tests reveal elevated unconjugated/indirect bilirubin. Most people avoid serious health problems for normal life expectancy.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Results of any liver biopsies or ultrasounds? • Past and recent liver function test results—bilirubin, alkaline phosphatase, SGOT, SGPT, and GGTP
<p>Glomerulonephritis (Bright's disease): The kidneys' filters (glomeruli) become inflamed and scarred, losing their ability to remove wastes and excess water from the blood to make urine. As the kidney damage progresses, symptoms may develop, such as: blood (hematuria) and protein (proteinuria) in the urine; swelling (edema) in the hands, feet, and ankles; and elevated blood pressure. If left untreated, the condition can lead to kidney failure. Treatment aims to slow the progression and prevent complications.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Details/type of treatment? • Dates and results of renal biopsy? • Results of latest urinalysis? • Past and recent kidney function test results—BUN, creatinine, 24-hr. urine protein • Any other medical conditions?

<p>Heart Enlargement/Cardiomegaly: Enlargement can be diagnosed on examination, by X-ray, suggested on a resting EKG, or through “the Gold Standard,” an echocardiogram (ultrasound of the heart). The enlargement can be a concentric or asymmetric thickening (hypertrophy) of the left ventricular wall or dilation of a heart chamber (atria or ventricles)</p> <p>Some causes of heart enlargement:</p> <ul style="list-style-type: none"> • Arrhythmia • Cardiomyopathy • Congenital heart disease • Hypertension • Obesity • Pericardial effusion • Pulmonary hypertension • Sleep apnea • Valvular heart disease <p>Normal Ranges on Echocardiogram: Left atrial dimension (LA): 1.9–4.0 cm Left ventricular dimension at end-diastole (LVED): 3.7–5.6 cm Right ventricular dimension at end-diastole (RVED): 0.7–2.8 cm Interventricular septum (IVS) thickness at enddiastole: 0.6–1.2 cm LV posterior wall (LVPW) thickness at end-diastole: 0.6–1.2 cm IVS/LVPW ratio: < 1.3 cm Aortic root dimension: 2.0–4.0 cm</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Type and severity? • Results of any Echocardiograms? • Any other medical conditions? <p>Current Condition:</p> <ul style="list-style-type: none"> • Current symptoms? • Restrictions on activities? • Does the client smoke?
<p>Heart Murmur</p>	<p>See Valvular Heart Disease</p>
<p>Hemochromatosis (Bronzed Diabetes): Hemochromatosis is a condition that develops when too much iron builds up in the body, resulting in damage to tissues and eventually organ dysfunction. Diagnosis is made through blood tests of iron, transferrin, and ferritin levels.</p> <p>Excess iron can lead to:</p> <ul style="list-style-type: none"> • Bronze pigmentation of the skin • Cirrhosis • Cardiomyopathy • Liver failure • Liver cancer <p>Hemochromatosis is treated by getting rid of extra iron in the body through regular blood loss (phlebotomy) or use of chelating agents that gather up excess iron and remove it through the urine.</p> <p>If hemochromatosis is treated early, most people have a normal life expectancy.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Severity of liver disease? • Results of any liver biopsies or ultrasounds? • Type and dates of treatments? • Past and recent liver function test results—SGOT, SGPT, GGTP • Past and recent serum transferrin saturation, ferritin level, serum iron
<p>Hepatitis</p>	<p>See Liver Disorders</p>

<p>Hypertension: Age, gender, genetics, obesity, salt consumption, psychological stress, trauma, pregnancy, kidney disease, endocrine disorders, and tumors can affect blood pressure levels. When BP levels are elevated over time, the risk for developing coronary artery disease, cerebrovascular accidents (CVA, stroke), kidney disorders, and congestive heart failure (CHF) increases. The risk of death from hypertension is further increased when combined with other coronary risk factors such as build, smoking, diabetes, family history, and elevated lipids (cholesterol and triglycerides).</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Medications: type and dosage? • Compliant with treatment and visits to their physician? • Degree of control—Current BP levels and readings for the past 2 years? • Any other medical conditions? • Normal results on EKGs, stress tests, perfusion studies, and echocardiograms?
<p>Kidney Disease: Chronic kidney disease (CKD) is a condition that occurs when the kidneys lose their ability to remove waste or maintain the proper fluid and chemical balances in the body.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Type of kidney disease? • Date of diagnosis? • Results of biopsies/ultrasounds? • Type and dates of treatments? • Kidney function test results: BUN, creatinine, 24-hr. urine protein • Blood pressure levels controlled?
<p>Kidney Transplant: Surgical replacement of diseased kidneys with a healthy (donor) kidney. There are two types of donors.</p> <ul style="list-style-type: none"> • Living donors—a family member (living related donor [LRD]) or a spouse or close friend (living unrelated donor [LURD]). Transplants using kidney of first-degree relative (father, mother, brother, sister) are most successful. • • Cadaver donor: If there are no compatible living related or unrelated kidney donors, transplant patients are placed on a waiting list to receive a kidney from a person who has recently died (cadaver kidney). <p>To reduce the likelihood of rejection and ensure the donor kidney matches the patient's tissue blood type, blood tests are done prior to transplant.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of transplant? • What condition led to transplant? • Source of donated kidney? • Signs of rejection or infection with transplanted kidney? • Type of immunosuppressive therapy used? • Results of current kidney function tests? (BUN, creatinine, 24-hr. urine protein)
<p>Liver disorders: Liver disease can include the build-up of fat (fatty liver), inflammation from a variety of causes (hepatitis), viral infection (viral hepatitis), scarring/fibrosis, and cell damage (cirrhosis).</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Type and severity of liver disease? • Liver biopsies/ultrasound results? • Type and dates of treatments? • Recovered? • Past and recent liver function test results—SGOT, SGPT, GGTP • Hepatitis cases: viral load? • Current and prior alcohol use—type, quantity, and frequency?

<p>Lupus: Systemic lupus erythematosus (SLE) is an autoimmune disease, meaning that the immune system turns against the body it is designed to protect. Lupus can affect many parts of the body, including the joints, skin, kidneys, heart, lungs, blood vessels, blood levels, and central nervous system. Some of the most common symptoms are fatigue, swollen or painful joints (arthritis), unexplained fever, and skin rashes.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Dates of flare-ups and remission? • What are primary symptoms and any complications? • Medication: type and dosage? • Any physical limitations/disability? • Any other medical conditions? <p>Kidney function test results? BUN, creatinine, 24-hr. urine protein</p>
<p>Mitral Valve Prolapse</p>	<p>See Valvular Heart Disease</p>
<p>Multiple Sclerosis: Degenerative disease of the central nervous system, in which hardening of tissue occurs throughout the brain and/or spinal cord. Symptoms include visual and sensory disturbances, weakness, lack of coordination, tremor, and spastic paraplegia.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Suspected or definite diagnosis? • What are primary symptoms? • Dates and frequency of attacks and remission? • Medication: type and dosage? • Is client's condition stable? • Is client ambulatory and independent? • Using braces, walker, or wheelchair? • Any problems with kidneys or bladder? • Currently employed or disabled?
<p>Muscular Dystrophy: Inherited, progressive muscular weakness due to irreversible muscle fiber degeneration.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Type of muscular dystrophy? • Degree of physical impairment and rate of progression? • Type of treatment? • Medication: type and dosage? • Any other medical conditions?
<p>Osteopenia and Osteoporosis: Osteopenia and osteoporosis refers to lower bone mineral density (BMD—bone mass and strength) that results when the rate of bone destruction exceeds the rate of bone formation. Osteoporosis does not result in death, but hip fractures can lead to pulmonary emboli and impaired mobility. Vertebral fractures can lead to back pain, hunchback, impaired</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Results of BMD, X-ray, MRI, and CT scans? • Stable? Rate of progression? • Medication: type and dosage? • Any fractures, mobility problems, spinal curvature, or disability?
<p>Paraplegia, Quadriplegia: Paralysis of legs, or arms and legs.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of onset? • Cause of paralysis? • Any respiratory problems? • Any bowel or bladder issues?
<p>Parkinson's Disease: Neurological disorder characterized by tremor, rigidity, and loss of motor control. The cause is unknown, but it can result from toxins, ischemia, infection, or trauma.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Medication: type and dosage? • Onset date of symptoms? • Severity and degree of physical impairment? • Rate of progression? • Living independently? • Any assistance required? • Medication: type and dosage? • Any other medical conditions? • Impaired judgment?

<p>Peptic Ulcer Disease: Sores in the inner lining of the stomach (gastric) or upper small intestine (duodenal) develop when the stomach's digestive juices irritate and damage the tissue. Infection with <i>Helicobacter pylori</i> (<i>H. pylori</i>) promotes ulceration and inflammation.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Medication: type and dosage? • Any blood in the stool? • Amount of any weight loss? • Any anemia—hemoglobin level? • Any difficulty swallowing (dysphagia) or jaundice? • Any obstruction? • Dates of any surgeries? • Current and prior smoking history? • Current and prior alcohol use—type, quantity, and frequency?
<p>Peripheral Vascular Disease (PVD): Atherosclerosis of the aorta and peripheral arteries. Peripheral vascular disease is most common in the vessels in the legs but can be present in the abdominal aorta, iliac, and renal arteries. Complications include skin ulcers and renal failure.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Any surgeries? • Medication: type and dosage? • Any other conditions such as hypertension, elevated lipids? • Claudication (exercise-induced pain in legs)? • Normal kidney function? • Smoking history?
<p>Polycystic Kidney Disease: Enlargement of the kidneys due to the formation of bilateral multiple cysts. Hereditary condition with no known cure, although symptoms can be treated.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Details/type of treatment? • Results of kidney function tests (BUN, serum creatinine tests, 24-hr. urine)? • BP levels controlled?
<p>Rheumatoid Arthritis: A chronic, inflammatory disease of unknown cause. The characteristic feature is joint deformity and persistent inflammation of the lining of the joints. Severity of the disease ranges from mild to a relentless, progressive polyarthritis with severe functional impairment. Some toxic forms of treatment can result in systemic complications.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Medication: type and dosage? • Any steroid or immunosuppressant use? • Any complications from medication used? • Rheumatoid factor level and sedimentation rate? • Details re: any physical limitations or disability? • Any other medical conditions? • Any anemia—hemoglobin level?
<p>Schizophrenia/Paranoia: Group of severe mental/emotional disorders, often involving delusions, hallucinations, and bizarre behavior.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • How severe is disorder? • Type of treatment? • Hospitalization required? • Medication: type and dosage? • Client capable of managing own affairs? • Is client employed? • Taking drug therapy? • Type and dosage?

<p>Sleep Apnea: Cessation of breathing for at least ten seconds during sleep. Apnea Index is the number of apnea episodes per hour. Hypopnea is 30 to 50 percent impaired airflow lasting ten seconds or more. Respiratory distress index (RDI) is the total of apneas and hypopneas. The term “sleep apnea” is used to describe a wide spectrum of complaints from loud snoring to periods of respiratory arrest long enough to lead to hypoxemia. Usually caused by upper-airway obstruction (obstructive) or loss of brain center drive (central).</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Type and severity? • Type of treatment received? • Is client compliant with treatment? • Results of pre- and posttreatment sleep studies (polysomnograms): apnea index, hypopnea index, O2 saturation? • Is client overweight? • Any daytime sleepiness? • Any motor vehicle incidents? • Heart condition or arrhythmias? • Blood abnormalities (hemoglobin) • Use of alcohol or other sedatives?
<p>Stroke</p>	<p>See Cerebrovascular Disease</p>
<p>Suicide Attempt</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of attempt? • Reason for attempt? • Multiple attempts? • Has client been hospitalized? • Medication: type and dosage? • Is client leading a normal life?
<p>Transient Ischemic Attack (TIA)</p>	<p>See Cerebrovascular Disease</p>
<p>Ulcerative Colitis: An inflammation of the mucosal layer of the wall of the large bowel.</p>	<p>History of Condition:</p> <ul style="list-style-type: none"> • Date of diagnosis? • Frequency and severity of attacks? • Date of last attack? Treatment? • Hospitalization or surgery? • Medication: type and dosage? • Ongoing symptoms? • Underweight or anemic? • Any other medical conditions?

Valvular Heart Disease:

Heart murmurs are classified as **functional** murmurs and **organic** murmurs based on the timing, loudness, duration, and location.

Functional Murmurs (also known as **physiologic** or **innocent** murmurs) are:

- Always systolic
- Soft (Grade 1 or 2)
- Non-radiating
- Present and unchanged for long periods

Organic Murmurs are:

- All diastolic murmurs
- Deformed heart valve caused by congenital heart disease, rheumatic heart disease, or atherosclerotic heart disease.
- Variety of heart murmurs caused by blood flow through a damaged heart or valve:
 - Aortic insufficiency
 - Aortic stenosis
 - Mitral insufficiency
 - Mitral stenosis
 - Mitral valve prolapse
 - Pulmonary insufficiency
 - Pulmonary stenosis
 - Tricuspid insufficiency
 - Tricuspid stenosis

History of Condition:

- Date of diagnosis?
- Type and severity of murmur?
- More than one murmur?

Treatment:

- Results of any echocardiograms?
- Describe treatment
- Dates and type of any surgeries?

Related Issues:

- Any cardiac, arrhythmia, or congestive heart failure history?
- Any heart enlargement?
- History of rheumatic fever?

Current Condition:

- Current symptoms?
- Restrictions on activities?
- Does the client smoke?

Sincerely,

Authorization for Release of Information – **SAMPLE ONLY**

NOTE: CONTACT YOUR AGENCY FOR AGENCY APPROVED HIPAA FORM

For the purpose of obtaining the insurance coverage that I have requested, I hereby authorize YOUR AGENCY HERE and its affiliated agencies, to disclose my personal financial and health information to the insurance companies listed below.

I authorize any health plan, physician, health care professional, hospital, clinic, laboratory, pharmacy, medical facility, Pharmacy Benefit Manager or other health care provider that has provided treatment or services to me or on my behalf within the past 10 years (“my Providers”) to disclose my entire medical record and any other information that may be considered protected health information under the Health Insurance Portability and Accountability Act of 1996 (“HIPAA”) concerning me to my Representative and its staff, affiliated companies and/or entities, insurance companies and their re-insurers. This includes information on the diagnosis or treatment of Human Immunodeficiency Virus (HIV) infection and sexually transmitted diseases. This also includes information on the diagnosis and treatment of mental illness and the use of alcohol, drugs, and tobacco, but excludes psychotherapy notes.

By my signature below, I acknowledge that any agreements I have made with my Providers that restrict disclosure of my medical records and any associated HIPAA protected health information do not apply for purposes of this authorization and I instruct my Providers to release and disclose my entire medical record without restriction to YOUR AGENCY HERE . I understand that any information that is disclosed pursuant to this authorization may be re-disclosed and no longer covered by certain federal rules governing privacy and confidentiality of health information.

The information contained in these medical and financial records will be held in confidence and may be used only for the purpose of the procurement, or the evaluation or underwriting for the possible procurement, of life, health, long term care, or other insurance products. The contents therein may be reviewed and assessed by a qualified staff consisting of medical directors, underwriters, underwriting assistants, or other related employees involved in the submission, receipt or evaluation of insurance applications or prospective applications of the insurance companies listed below and their re-insurers as well as YOUR AGENCY HERE and its staff, employees and affiliated companies.

This authorization shall be valid for twelve (12) months from the date below. A copy of this authorization shall be as valid as the original. I understand that I am entitled to receive a copy of this authorization.

I understand that I may write to my Representative to revoke this authorization and that the revocation will take effect when my Representative receives my written request. I understand that any action already taken in reliance on this authorization cannot be reversed, and my revocation will not affect those actions. I understand that the medical provider to whom this authorization is furnished may not condition its treatment of me on whether or not I sign the authorization.

I understand that if I refuse to sign this authorization, YOUR AGENCY HERE may not be able to provide full and complete information about the insurance coverage and its cost that may be available to me. I also understand and acknowledge that each of the insurers listed on this form or to which I may formally apply, may require me to sign a similar authorization used exclusively by such insurer before they will process my application or offer insurance coverage. I understand that my Providers may not refuse to provide treatment or payment for health care services if I refuse to sign this authorization.

CARRIERS TO WHOM CARRIERS MAY RELEASE INFORMATION

ACKNOWLEDGEMENTS

NAILBA offers our sincerest gratitude to the original members of the Field Underwriting Subcommittee which was first formed as a component of the NAILBA Application Pipeline Committee. Without their volunteer time and resources, this Guide would have not been able to be produced.

Although many of the following individuals have accepted new positions in the brokerage community, their assistance in developing the original version of this Guide were invaluable.

Grant Andrew	Cindy Gentry
Pam Anson	Bill Hunter
Kim Boyer	Jeff Lingenfelter
Barry Cook	Yvette Saenz
Stacey Gabaldon (chairperson)	Beth Zervas

Special thanks go to Beth Zervas and Kim Boyer for their efforts in developing the comprehensive Medical Impairments section of this Guide. We would also like to thank the following members of the NAILBA Community for their contributions and permission to use their forms and content in this piece:

Name	Organization
David Long	CPS Sacramento/Long Insurance Services
Michael Tessler	Brokerage Unlimited
Victoria "Tori" Van Dusen-Roos	Diversified Brokerage Services
Becky Wingate	LifeMark Partners

Finally, this 2015/2016 revision is thanks to the dedicated efforts of the following individuals who served on the Field Underwriting Guide sub-committee of the 2015 NAILBA Professional Development Committee.

John Gilbert
Varsha Grogan
Amy Jeffryes
Abby Milner Mann
